Darrin Tingey—Technology Director

Fremont Re-2 School District
Entity Number: 142410
Access Points
Additional Information

The Fremont Re-2 School District currently has two C35 Extreme Access Point Controllers with 51 access points on each controller. The controllers are each licensed for 82 Aps. We are seeking bids on expanding our wireless network to include an additional 50 Access Points.

The access points would be distributed into the network as follows

Fremont Elementary: 15
Penrose Elementary: 15
Fremont Middle: 15
Florence High School: 5 one of which must be an Access point for Outdoors

The bid can be for Hardware and installation or can be just hardware. If the bid includes installation it must be itemized as such.

The access points must be compatible with Extreme Controllers and be able to take advantage of the existing licensing.

Any Additional information or Q&A will be posted below as it is needed.

Please contact Darrin Tingey via 719-784-2522, dtingey@re-2.org for additional information.
